

# JET ASSISTED PUMPS

## OJ Range

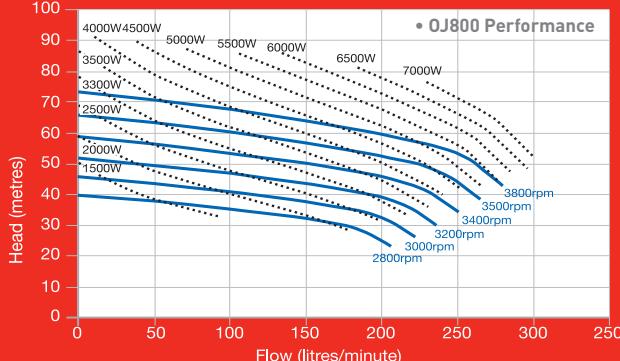

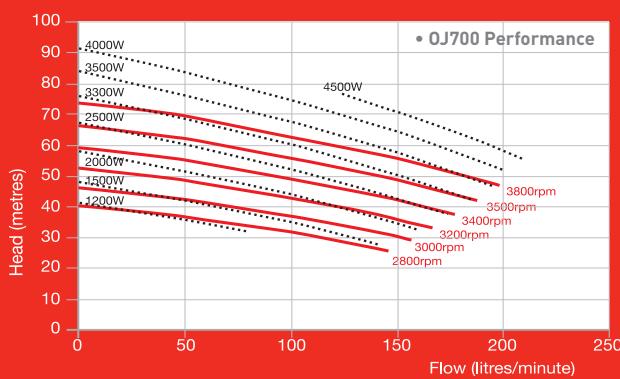

POWERED by  
**HONDA**™

- A serious jet-assisted pump independent of electrical supply, able to be located anywhere
- Cast iron to stand up to the extreme pressures common in engine driven jet pumps
- Combining the best jet pumps with the most reliable petrol engines produces Onga OJ700E & OJ800E
- A jet pump gives you the flexibility to draw water from any source
- Versatility – available in shallow well or deep well with over 40 injector combinations for the Onga Farmmaster range, there's a setup to suit almost any application

### Applications:

- High suction lifts from dams, bores & rivers.
